

Download 2010 Honda Civic Manual Transmission

After putting several different Honda Civic Coupe and sedan models through the paces, the car experts at TheCarConnection.com studied a wide range of road tests relating to the 2010 Honda Civic. The eighth generation of the Honda Civic was introduced in September 2005, for the 2006 model year. This generation introduced the "two-tier" instrument panel. In many countries (USA, UK, New Zealand), all models (including the base model) come standard with power windows, anti-lock brakes (ABS), and side/curtain airbags (for a total of six airbags). The Honda Civic Hybrid is a variation of the Honda Civic with a hybrid electric powertrain. Honda introduced the Civic Hybrid in Japan in December 2001 and discontinued it in 2015. In the United States, it was the first hybrid automobile to be certified as an Advanced Technology Partial Zero-Emissions Vehicle from the California Air Resources Board (CARB). The 2019 Honda Civic Sedan impresses with aggressive lines, a sophisticated interior and refined features that stand out from the traditional compact sedan.
