

Download How To Build Max Performance Ford V8s On A Budget

Ford's 351 Cleveland was designed to be a 'mid-sized' V-8 engine, and was developed for higher performance use upon its launch in late 1969 for the 1970 models. This unique design proved itself under the hood of Ford's Mustang, among other high perform

With any engine project, a large collection of external components takes up a fair portion of the engine build time and budget, yet many are not considered parts of the basic engine package. In Ford Coyote Engines: How to Build Max Performance, veteran Ford writer and historian, Jim Smart, explains and highlights all of the latest and greatest options to achieve more horsepower and torque, and of course, faster quarter-mile times.

How to Build a 500 Horsepower Ford 351 Cleveland Engine- Covers Engine Building and Performance Upgrades to the 351C, 351M, 400M Ford Cleveland Engine
