

Download Nurses Guide To Cancer Care

Here is the guidance the generalist nurse needs to care for adults with cancer. This handbook is a complete resource for non-oncology nurses. Readable, thorough, and well-organized, the text's comprehensive approach follows the continuum of care from diagnosis to hospice when warranted. Nurses and physicians have traditionally been involved with tertiary prevention, the care, and rehabilitation of patients after cancer diagnosis and treatment, but the American Cancer Society, the National Cancer Institute, clinicians, and researchers also place emphasis on primary and secondary prevention of cancer. Primary prevention. Issues of today and tomorrow. Changes in cancer care and reimbursement --Ethical dimensions in cancer care --The challenges of cultural diversity in patient care. Other Titles: Cancer care: Responsibility: [edited by] Brenda M. Nevidjon, Kevin W. Sowers. This activity, Advances In™ Supportive Care: An Onco-Nurses Guide to Managing Cancer Treatment- Related Toxicities, will highlight best practices in the supportive care management of a broad range of treatment-related toxicities that you can apply in the care of your patients with cancer. Some of these toxicities, such as hematologic ...
